

TOWN OF HURLOCK

ATTENTION: WATER CONSUMERS

Beginning at midnight, Saturday May 3rd, 2014, the Town of Hurlock Public Works Department will initiate the flushing of the Town's water system.

While the flushing is in progress, it is likely that some consumers could experience drops in water pressure and/or rusty water. Customers should avoid doing laundry during this period and reduce the use of hot water to a minimum. It is anticipated that normal service will be restored by 6:00 A.M., Monday May 5th, 2014.

This program may cause some minor inconvenience for the water consumers of Hurlock, but should serve to significantly improve the quality of service during the following months. Your cooperation and understanding are greatly appreciated. If you have any questions concerning the flushing program, please call 410-943-4181.
